ready for use
and integrated into
the panel

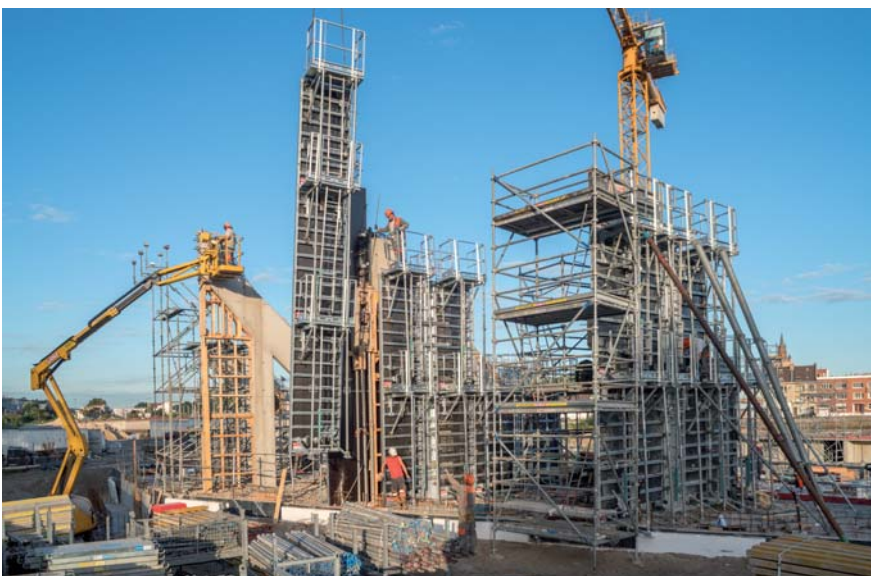

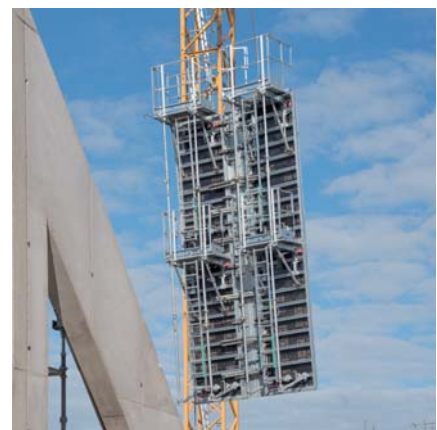

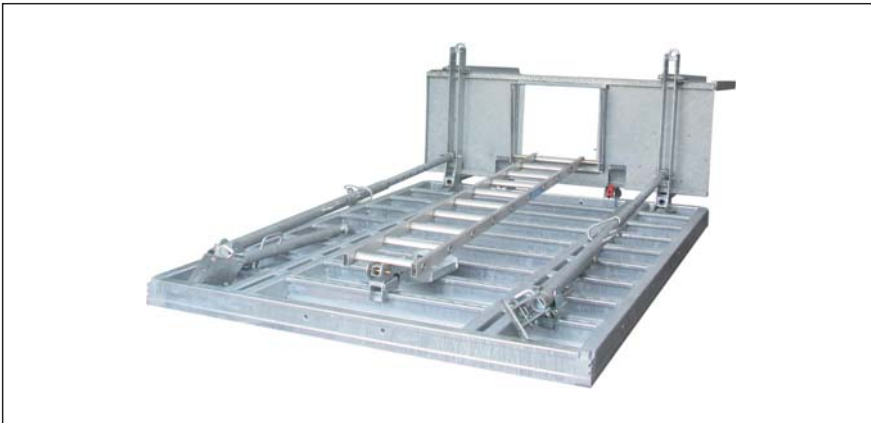

NOEtop S – workplace safety ready for use and integrated into the panel

Designed for particularly high safety standards on site. Working platforms with all-round safety rails, ladder access and integrated stabilizers are attached directly to NOEtop large area panels and are supplied to site ready for immediate use. Simply fold out the working platform and align the stabilizers – and the NOEtop S is ready for use. It requires only to be folded up before being moved to the next position. Dismantling is not required..

Your advantage:

- Working platforms, ladder access and stabilizers are integrated directly into the NOEtop panels.
- Ready for immediate use on site
- Folds down to only 370 mm depth
- Platform widths: 2650; 2400; 2000; 1325; 1200; 750; 600; 450 mm
- Clamped directly onto NOEtop panels
- All-round protection against falling from height
- Assembled horizontally
